

## Is your business ready to migrate?

SAP® BusinessObjects™ recently recognized Kingfisher's education investment by naming us as the #1 partner worldwide for qualified Migration Specialists...

# SAP BusinessObjects™

## Migration Specialist

### Kingfisher Migration Services

Whether you are migrating from an earlier version of Business Objects or looking to consolidate your BI initiatives, Kingfisher will work with your business and technical teams to help you migrate faster and with lower risk. Migration is not a push button process. Kingfisher has developed a migration methodology that works seamlessly with the SAP BusinessObjects Migration Toolset to help you succeed with the migration process while maximizing new product features to enhance business understanding and process.

### Migration Methodology Process

#### **Assessment**

An audit of your existing applications and environment including planning, budgeting and risk assessment.

#### **Scope and Analyze**

Review the scope of current applications and identify any growth requirements that will impact the proposed solution.

#### **Design**

Architect and design the solution using recommended best practices that will support the growth of your business.

#### **Implement**

Develop, test and implement throughout all environments.

#### **Sustainment**

Provide recommendations for end user training and planning for sustainment including knowledge transfer to your technical team.

## About Kingfisher

Kingfisher has been providing Business Intelligence solutions for almost two decades to many Fortune 500 companies. We pride ourselves on providing quality services, enabling our clients to maximize the return on their BI technology investments. Kingfisher has established itself as a sought after firm by delivering enterprise solutions to maximize business potential. Kingfisher has achieved Platinum Partner status with SAP BusinessObjects in the first year eligible and have maintained that status to date. In addition to migration services, Kingfisher boasts unparalleled knowledge and experience across the SAP BusinessObjects platform. As an Authorized Education Partner, Kingfisher delivers customized, onsite and virtual training. You will also find many of our technical resources presenting in various capacities including GBN events, Reporting and Analytics seminars, and local user groups. Contact us for all of your business intelligence needs.

**"... the best resources I have seen in the BI space in 10 years. They are a delight to work with and bring a can do attitude to match their outstanding knowledge of Business Objects... utilizing their strengths and talents fully as we migrate to 3.1."**
