

## What is all the hype about?

Everyday casual technology users gain insight from information gathered through simple internet searches. We decide what to wear after a quick visit to weather.com, plan a road-trip based on Mapquest or Google maps, or potentially change our common driving patterns with the aide of GPS technology. What if you could create the same ease of access to information in your day-to-day business activities? Do you have the same easy access to the information you need to make your business decision?

Now you can...SAP® BusinessObjects™ Xcelsius can provide reliable information at your fingertips so you can make informed, fact-based business decisions.

*"77% said bad decisions had been made because of lack of information"*

## Kingfisher Xcelsius Design Services

SAP BusinessObjects Xcelsius allows you to see your business in a whole new light. Allow Kingfisher's Xcelsius Design team to transform your complex business data into actionable visual information. Kingfisher has been working with Xcelsius since its inception and have since been developing industry-changing visualizations. Kingfisher has identified and overcome out-of-the-box limitations repeatedly exceeding customer's expectations.

## Xcelsius Design Methodology Process

### Assessment

An audit of your existing applications and visualization requirements.

### Scope and Analyze

Review the scope of current applications and identify any growth requirements that will impact the proposed solution.

### Design

Architect and design the solution using recommended best practices that will support the growth of your business.

### Implement

Develop, test and implement throughout all environments.

### Sustainment

Provide recommendations for end user training, adoption and planning for sustainment including knowledge transfer to your technical team.

### Deliverables

Kingfisher's Xcelsius Design Methodology also includes the following deliverables:

- Project Plan
- Architecture Design Document
- Test Plans
- Sustainment Plan and Recommendations

### Packaged Xcelsius Offerings

Kingfisher offers packaged service offerings to complete your migration strategy. These include but are not limited to:

Offering	Resources	Timeframe
Quick-start Visualization	Xcelsius Specialist	2 Weeks
Custom Xcelsius Design	Xcelsius Specialist Senior Consultant	TBD *

\* Analysis will be required to determine timeframes and cost based on environments, reporting used and number of environments that require migrations.

### About Kingfisher

Kingfisher has been providing Business Intelligence solutions for almost two decades to many Fortune 500 companies. We pride ourselves on providing quality services, enabling our clients to maximize the return on their BI technology investments. Kingfisher has established itself as a sought after firm by delivering enterprise solutions to maximize business potential. Kingfisher has achieved Platinum Partner status with SAP BusinessObjects in the first year eligible and have maintained that status to date. Contact us for a personalized Xcelsius consultation including a full readiness assessment and recommendations for deployment.
