

INSTALL PACKAGED SERVICE

Fixed Scope / Fixed Price

Begin your Business
Intelligence journey.

New beginnings

For customers new to the SAP Analytics world, get results quickly using the Install package from Kingfisher. We will work with your team to make sure the install is done right and that all parameters are customized to meet the needs of your business.

Deliver immediate results with our rapid, single server implementation.

Analyze process flow and validate optimized functionality to provide a secure, reliable platform.

Secure your BI future with a BI roadmap that will serve the needs of your business today and will plan for the infrastructure demands in the future.

Maximize results using our proven methodology and best practices.

What's Included

Design. Architect and document your BI architecture solution to realize your immediate needs today and to plan for your future business growth.

Optimize. Install and configure one BI4.x server.

Workflow. Validate end-to-end system functionality ensuring a solid secure platform.

Tune. Optimization for future sustainable utilization and growth.

Plan. Document recommendations for future growth to support your growing business needs.

*Demonstrate BI Analytics in
days, not weeks.*
