

DEPLOYMENT HEALTH CHECK SERVICE

Time for an analysis
checkup.

Be Proactive with your BI Health

IT groups face challenges in delivering services effectively and achieving a breakthrough in service performance with the increasing service-level demands and budget restraints.

Kingfisher provides various levels of health check system reviews and pro-active engagement support services that mitigate these risks and lead to more successful results that drive bottom line profits for your organization.

Focusing on your specific environment, we'll deliver the relevant information to get your systems running at peak performance.

Kingfisher Health Check begins with your BusinessObjects deployment.

What's Included

Evaluate. An in-depth review of your current BI systems and processes.

Recommendations. Discuss how BusinessObjects best practices can improve your current BI landscape.

Tune. Performance enhancement recommendations for the BusinessObjects system configuration, report processing and security.

Record. Documentation of current system architecture.

Baseline. Documentation of observations and recommendations for all assessment activities.

*Get the most out of your
BI investment with a tune
up from Kingfisher.*
